EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Benjamin Urcia (Reg# 33,805) on 13 February 2006.

The application has been amended as follows:

Claim 3 is canceled.

Allowable Subject Matter

2. Claims 1-2 and 4-11 are allowed.

3. The following is an examiner's statement of reasons for allowance: The cited prior art, Tatebayashi et al US Patent No. 6,049,611 and Bruce Schneier Applied Cryptography teach the generation of the authentication parameter SRES using a secret key and a random number. However, the cited prior art fails to teach the splitting of the secret key and the random number into at least two parts where one of the parts

of the random number is encrypted with one or more parts of the secret key. As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
